New Indeva Liftronic® Easy05

The new Indeva Liftronic® Easy05 redefines the Standard of Excellence for material handling

Our continuous improvement policy extending back over thirty years has introduced many changes. Scaglia Indeva is proud to present the Indeva Liftronic® Easy05, the most cutting edge industrial manipulator in the world.

Key Benefits:

- > Long term cost benefit of ownership
- > Further improved high reliability

Main new features:

- > Management and control of vertical movement
- > Universal tool connector
- > Wider diagnostic capability
- > New endless swivel joint (optional)
- > New 3 joints arm (optional)

Accessories

New swivel joint

The Indeva Liftronic® Easy05 is now available with a swivel joint that allows continuous rotation of the universal toolhead around the vertical axis.

New Orbit-Arm3

The Indeva Liftronic® Easy05 can include this triple sectioned arm which gives total accessibility to all areas within the radius of the arm (no dead space).
